

TO FIRED BURNER ASSEMBLY FUEL COMBUSTION COIL TYPE

Dual Steel Coil Construction
Design to keep the heated air in the chamber longer to utilize the max amount of the heat.

High Heating Exchange Rate
Top fired burning system features high heating exchange and easy maintenance.

DANAFOSS Fuel Pump
High performance DANAFOSS brand fuel pump for all models.

Low Emission
Appropriate fuel nozzle orifice and inlet air adjustment with precise ignition control.

Smart Temp. Controller
Easy to set ignition and stopping temp. Max limited 140°C/284°F.

Digital Display
Outlet temperature detecting and digital display in real time.

Light Detecting
Light detecting during ignition process and burning status, discontinuity ignition.

Engine DC12V Recharging
To charging the battery and for ignition and temp. controller usage.
